Assess-A-Thon

Assess-A-Thon 2.0

Executive Intelligence Report

26th March 2026 – 28th March 2026

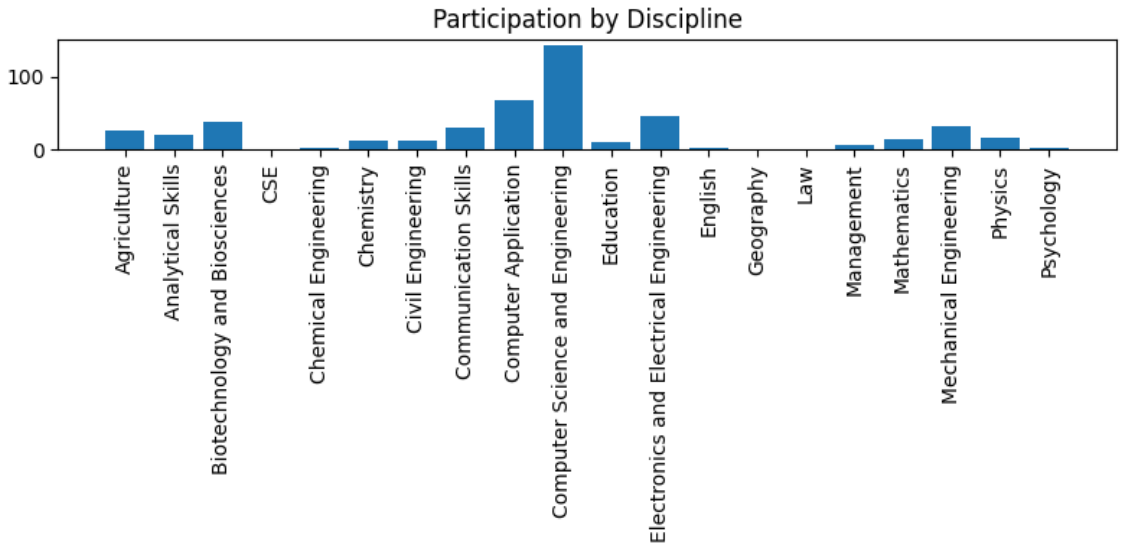
Prelude

Objective: Establish a data-driven faculty capability intelligence system.

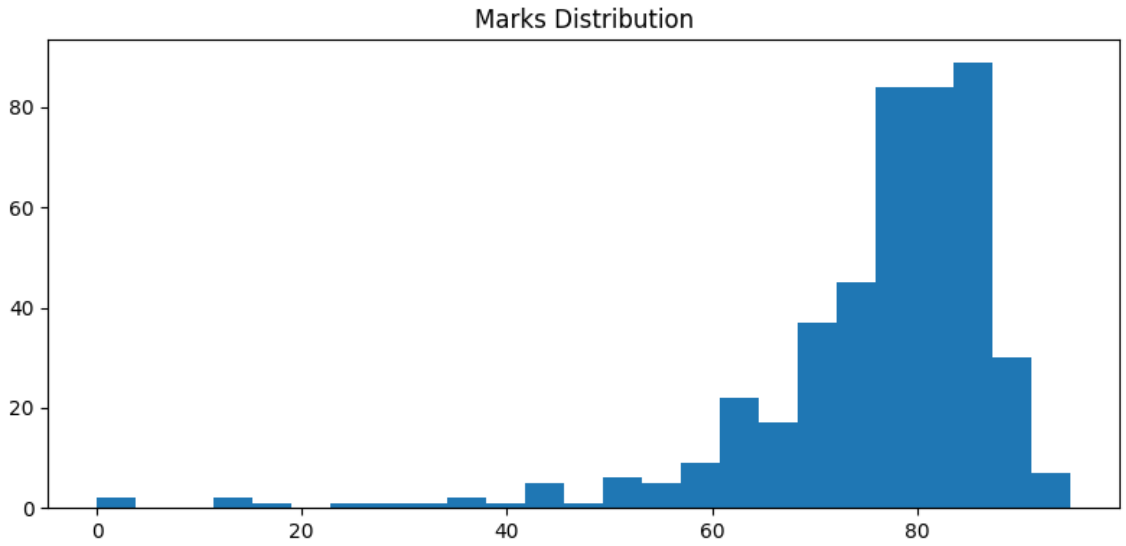
Outcome: Identification of performance gaps, participation behavior, and training needs.

Agentic Jury Framework: World's First AI-driven multi-agent evaluation system ensuring unbiased, scalable, and cognitive-depth assessment.

Participation Intelligence



Performance Intelligence



Capability Snapshot

Strength: High engagement in select disciplines
Weakness: Low cognitive depth in analytical categories
Opportunity: Structured AI-driven training
Threat: Uneven capability scaling

Conclusion & Way Forward

Conclusion: Institution demonstrates strong participation but requires structured capability enhancement.

Way Forward:

- Targeted Training (RBT-based)
- Discipline-specific interventions
- Continuous AI assessment cycles
- TeachGenie institutional deployment

Business Proposition:

Deploy TeachGenie as a continuous faculty intelligence and training platform.
